Dear Parents/Students,

This year I will be using the Remind app to communicate with you. Through this app I will be sending out important building information and reminders. By downloading this app or signing up via text message, I will be able to ensure that we are all on the same page. I am so excited to share this with you all! I have provided some basic information about the app below and instructions to sign up are on the back page.

What is the Remind app?

The Remind app is a communication platform that helps every student succeed. Remind makes it easy to stay connect to your school or classroom community and gives students and parents the ability to communicate with their teacher in real time and on any device.

Why do I need this app?

During the school year there is a chance that telephone numbers can change, and people may change addresses. Often, this leads to lost communication. It is crucial to be able to communicate with you. I will post important information regarding important dates and reminders. You may also communicate with me directly on the device of your choice, should you have questions or concerns.

Is Remind safe?

Rest assured that Remind does not sell or share information about students, parents or teachers. All personal information will remain private, secure, and confidential. You will also not receive spam texts or phone calls.

Please feel free to contact me with any questions. I hope that by using this app we will be able to strengthen the connection between home and school!

Go Panthers,

Mrs. Heaven Reinard

Bloomsburg Middle School Principal
