Positions

The following positions are covered under this Plan: Executive Principal K-12+, Director of Curriculum and Instruction, Special Education Supervisors, Elementary Principal, Middle School Principal, and High School Principal, or other positions which result from combinations of the above.

Administrative Salaries

Newly hired or transferred administrators will negotiate a starting salary with the superintendent followed by the superintendent's recommendation to the board of directors for approval. The newly hired administrator will follow the salary increase schedule of all Act 93 personnel.

The Board retains the right to adjust the administrator's annual salary during the duration of this agreement, provided the adjustment does not reduce the annual salary in effect at any given time.

If satisfactory performance of duties as evidenced through the evaluation process outlined below occurs, the administrator will be awarded an annual salary increase of \$2,500.

Administrator Evaluation

Each administrator's evaluation will consist of the following components:

- 1) Each administrator will meet with the superintendent during the month of August in order to discuss his/her performance expectations for that current school year. The performance expectations should include a rationale and timetable for completion. The performance expectations will be reviewed and approved by the superintendent. These performance expectations will be used as one component of the administrator's end of the year evaluation process performed by the superintendent. The superintendent will present performance expectations with the school board in executive session by the first school board meeting in October.
- 2) Fulfilling of responsibilities as outlined in job descriptions, the school code and regulations promulgated by the Secretary of Education.
- 3) Completion of evaluations, observations, or the review of the differentiated supervision plans of subordinates.
- 4) Appropriate participation/contribution as a member of the district's administrative team.
- 5) Regular attendance at all school board meetings.

- 6) Participation on committees, task forces, extra-curricular activities, etc.
- 7) Exceptional professional activities such as publications, conference presentations, advanced degrees, and special recognitions.
- 8) A mid-year evaluation conference with the superintendent will be held during the months of January or February. This conference will be used to consider additional performance expectations that may have occurred during the school year, and to evaluate the status of all performance expectations.
- 9) The Faculty Administrative Survey developed by the superintendent in conjunction with the administration will be distributed to the faculty by the end of each school year. Results of the administrative survey will be discussed during each administrative end of the year conference with the superintendent and a summary will be presented to the Board.
- 10) An end of the year evaluation conference with the superintendent will be held during the months of May or June.
