

**Buildings, Grounds, and Athletics Committee
of the Bloomsburg Area School District Board of Directors**

12 June 2024

Bloomsburg Area Secondary Complex Enhanced Learning Center

Meeting Summary

Solar Panel Discussion

- Review of roof options with Tremco
- Roof mounts should only take place at Evans or Memorial based on the restoration that took place in 2021
- Recommending that if the district would want to mount panels on the roof at secondary complex, a roof restoration should take place first
- Rooftop units make routine maintenance and repairs more difficult
- Tremco would not remove solar panels, district would need to have them removed by the installer
- Recommended to reach out to Central Columbia regarding their PPL costs and billing

W.W. Evans HVAC

- Discussion on the beginning phases of looking at options for new HVAC system
- Options to consider and can be an extension of the solar project with geothermal
- Would need to have a preliminary study completed to look at options and cost

Land Parcel Donation

- Small piece of property is being requested to be handed over to the district off of Old Berwick Road
- No benefit to the district for taking ownership of this property

Wheelchair-Accessible Van Proposal

- Bid requirements, specifications and timeline shared with committee
